

NEXT STEP REHAB, P.A.

As a patient being referred to Next Step Rehab / Physical Therapy, by your physician, you are entering an agreement towards your care. This requires a commitment from you, the patient.

It is also very important for you to follow the directives of your physician and therapist.

All scheduled visits must be kept in order to attain success. That means if you are sick or running late for your appointment, you must give the therapy clinic a call. We would appreciate a 24 hour notice, but we understand that emergencies happen.

***As of August 23, 2017 we will be charging a \$25 "no show" fee.***

Also if you are referred by worker's compensation insurance, it is vital that you attend all sessions. Missed sessions may adversely affect your status with worker's compensation. Next Step Rehab is in contact with your worker's compensation insurance of any "no show" appointment.

Please be considerate to our staff and other patients and let us know if you cannot come on your scheduled time. Another patient might need your time slot.

Thank you,

The Staff of Next Step Rehab, P.A.
